

Con un quadrato 25x25 cm otterrai una mongolfiera alta 15 cm.

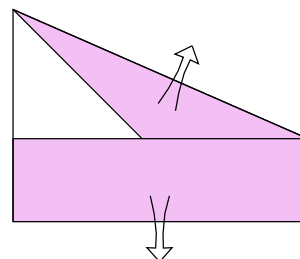

Usa carta bianca da un lato e fantasia dall'altra, ad esempio carta da regalo.

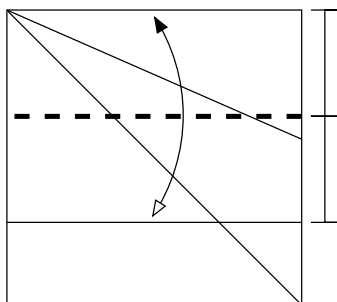

1. bianco sopra

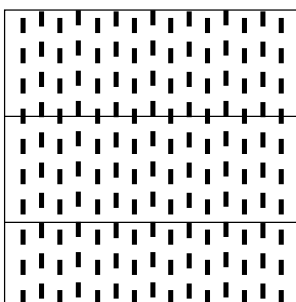

2.

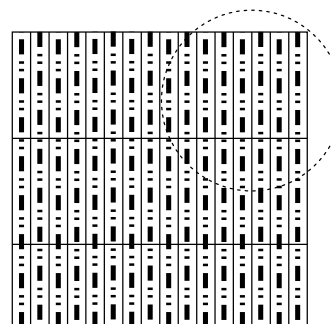

3. riapri tutto

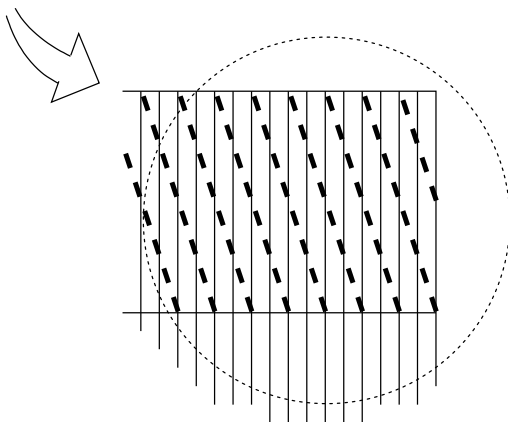

4. piega e riapri

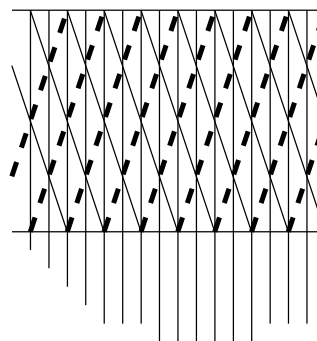

5. dividi in 16esimi
sempre a valle

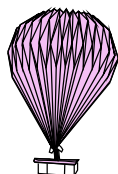

6. dividi in 32esimi
sempre a monte

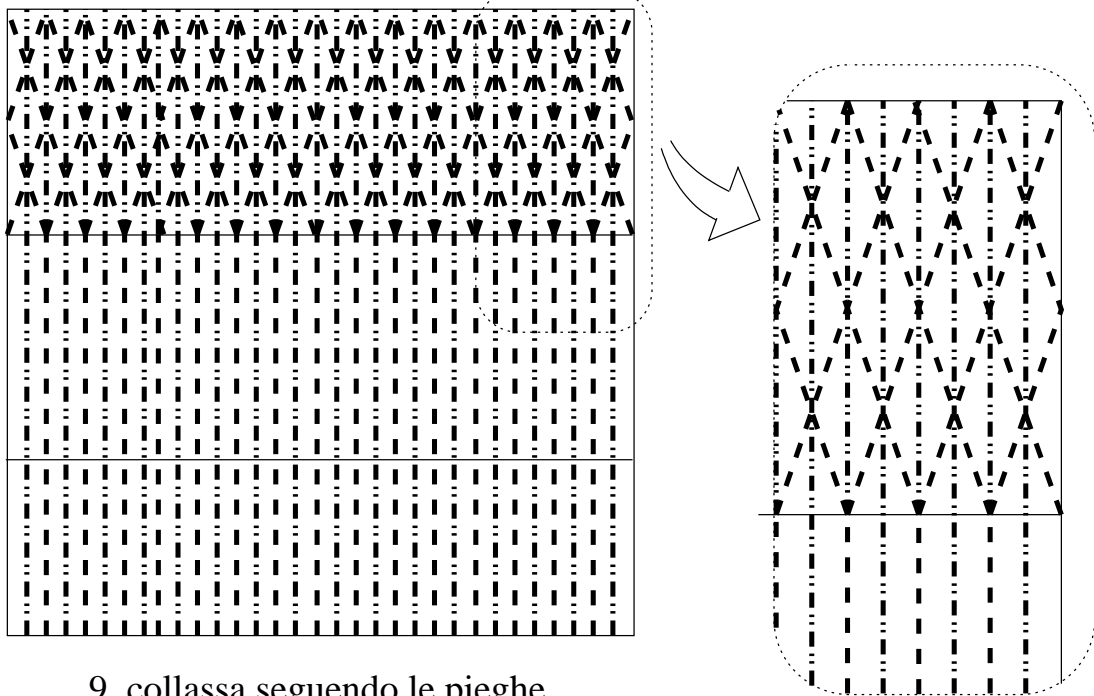

7. ripeti le pieghe (tutte a valle)
su tutta la fascia in alto

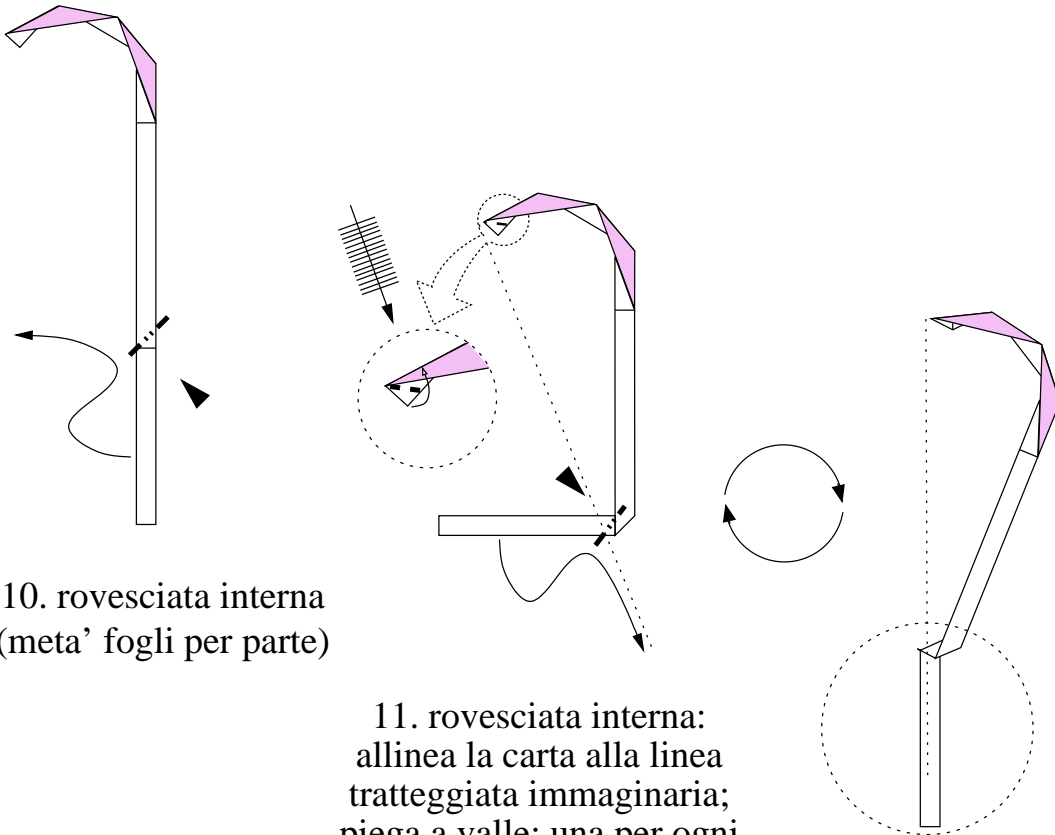

8. ripeti le pieghe (tutte a valle)
su tutta la fascia in alto

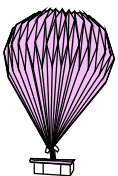

9. collassa seguendo le pieghe

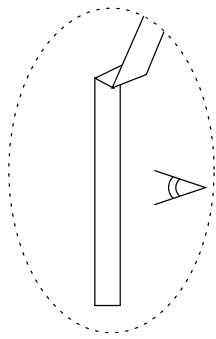

10. rovesciata interna
(meta' fogli per parte)

11. rovesciata interna:
allinea la carta alla linea
tratteggiata immaginaria;
piega a valle: una per ogni
aletta, per bloccare la cima

12. ... cosi'... ora
si comincia a
fare il cestello

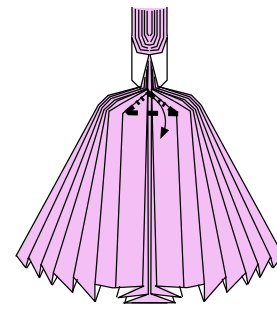

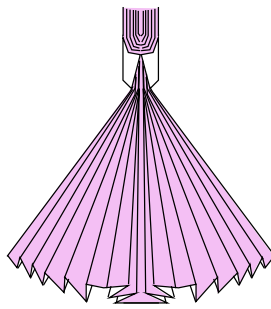

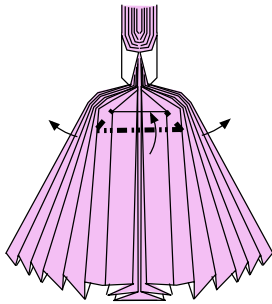

13. vista dal davanti

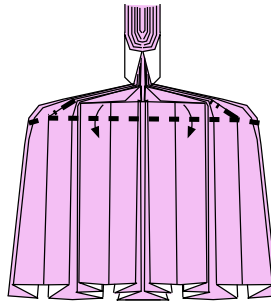

14. apri in basso... nota la disposizione dei fogli

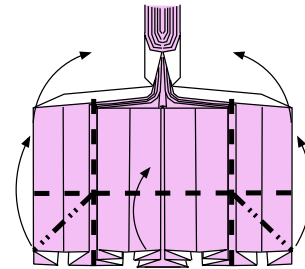

15. il modello non e' piu' piatto

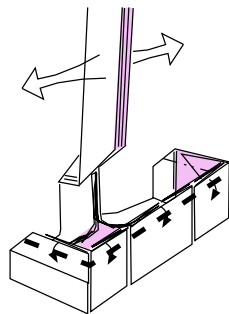

16. solleva e allarga ai bordi

17. abbassa la parte sopra

18. il cestello diventa 3-D

19. ripiega i bordi del cestello e apri il pallone, rendendolo tridimensionale

... e ora puoi volare!
